Clara Buckley	

Cartography by Amelia Fatykhova, 2023

Depth: 208 ft
Length: 345.8 ft

Rigging Information:

Entrance series: 200' rope for the tree, and the first 5 in-cave bolts to the canyon floor. A redirect with a carabiner or quick-draw through the spit right outside the entrance is recommended.

Up/down: Fixed rigging.

Coconut Well: 125' rope for 4 bolts, wrap around rope pad at top recommended.

Fixed Rigging:

11 mm PMI Pit Rope installed 04/01/2023.
All permanent bolts are 3/8 stainless steel hardware.
